

FOR IMMEDIATE RELEASE

X9Ware LLC Releases X9Assist R2.04 With Added Features

ST. LOUIS, Missouri (May 6, 2013) - X9Ware LLC announces the availability of X9Assist R2.04 now including valuable usability improvements to its' flagship product. X9Assist is a full function tool for organizations involved with check image processing both in the United States and Canada using the industry standard ANSI X9.37 and X9.100-187 format and its' variants.

This latest release, R2.04, adds a powerful *Search/Replace* function that enables a query of occurrence(s) of any value in any field within an x9 file, thus immediately reducing the focus of a search by selecting a specific x9 record type and/or a specific x9 field. Complementing the powerful Search capability is an associated *Replace* function can be used to make massive repetitive changes to an x9 file. All changes are logged and can be reviewed and individually reversed.

R2.04 also enhances the *Make* function to a one step process, thus representing a simplified and improved user experience. *Make* allows the creation of fully-formed x9 files from MICR use cases with the input defined in Excel worksheets. *Make* will dynamically draw the associated images with matching MICR lines, therefore allowing image recognition to be performed by a capture system.

A complete list of enhancements included in R2.04 can be found at the X9Ware LLC website www.x9ware.com go to Contact Us and Release History. When visiting the website, an evaluation copy with limited x9 files and records can be downloaded from the Downloads section. A full function version can be made available for an extended evaluation period. Please write to x9assist@x9ware.com

About X9Ware LLC

X9Ware LLC (www.x9ware.com) provides extensive tools for users of the various x9.37 file specifications. The product line extends from a free x9 viewer to tools that include validate, modify, make, generate, scrub, import, export, and a host of other x9 support and reporting functions. X9Ware LLC strives to offer the best tools in the industry and also offers consulting services that are based on our 35 years of industry experience of its founder, Lowell Huff
